

BACHELOR OF SCIENCE IN PHYSICAL EDUCATION AND HEALTH (EC-12)

Program Overview

The Bachelor of Science in Physical Education EC-12 is designed principally for preparing individuals to teach Physical Education EC-12 (all level). The Physical Education program focuses on the academic, emotional, spiritual, and social behaviors of the students.

Career Opportunities for Physical Education All-Level Majors

The physical education degree program is designed for a student preparing for a career as a teacher of Physical Education EC-12 in public schools. In addition, the program prepares students for a career in the recreation field. It also provides foundation courses to prepare the student to pursue graduate study.

Objectives

The primary objectives of the program are to:

1. Expose students to both theory and application of the physical education program standards.
2. Help students to acquire pedagogical methods for teaching at all levels.
3. Prepare students for all-level teacher certification and careers in physical education in both public and private elementary and secondary schools.

Educator Preparation Program Requirements

To graduate from the Educator Preparation Program (EPP), students must meet the following requirements:

- Earn a minimum grade point average of 2.75.
- Pass all courses required in the major with a grade of C or better.
- Successfully complete student teaching by performing at a “B” or above grade level.

Candidates who graduate from the EPP meet the criteria for recommendation of a standard teaching certificate. Candidates must complete the application and pay associated fees to the Texas Education Agency (TEA). For the most up-to-date information on admission to the traditional EPP, teacher candidacy and advancement, and criteria for admission to and retention in student teaching (clinical teaching), see the Educator Preparation Program page on the Wiley University website.
